The STT meeting for Sacramento River fall Chinook will be held Thursday, June 21, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

The STT meeting for Strait of Juan de Fuca natural coho will be held Tuesday, June 26, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

The STT meeting for Queets River natural coho will be held Wednesday, June 27, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

The STT meeting for Snohomish River natural coho will be held Thursday, June 28, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

Three natural coho stocks (Queets coho, Strait of Juan de Fuca coho, and Snohomish coho) and two Chinook stocks (Sacramento River fall Chinook and Klamath River fall Chinook) were found to meet the criteria for being classified as overfished in the PFMC Review of 2017 Ocean Salmon Fisheries. Under the tenets of the Salmon Fishery Management Plan (FMP), the STT is required to develop a salmon rebuilding plan for each of these stocks and propose them to the Council within one year.

The STT will meet with tribal, state, and other management entities who will work with the STT to provide data and expertise on pertinent topics to be included in each rebuilding plan, consistent with the FMP. Discussions may include, but are not limited to, work flow, document structure, and timeline. One meeting will occur for each of the five stocks; additional meetings will be scheduled as needed. These work sessions are open to the public.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

The meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt at *kris.kleinschmidt@noaa.gov* or (503) 820-2411 at least 10 days prior to the meeting date.

Dated: June 4, 2018.
